

# Compilers

## Statement of Accomplishment

Login ID: at1530@tomazos.net

Name: Andrew Tomazos

Congratulations! You have successfully completed the free online offering of Compilers, offered April through June 2012. To successfully complete this free online class, students were required to watch lectures, complete quizzes and automated exercises, and take a midterm exam and a final exam. Furthermore, a full compiler including lexical analysis, parsing, type checking, and code generation for a real machine, was satisfactorily completed. According to our automated system, your scores on these components were as follows:

Quizzes: 52.3 out of a maximum of 62

Midterm: 6.6 out of a maximum of 9

Final: 4.5 out of a maximum of 10

Programming Assignment 1: 63.0 out of a maximum of 63

Programming Assignment 2: 70.0 out of a maximum of 70

Programming Assignment 3: 74.0 out of a maximum of 74

Programming Assignment 4: 52.0 out of a maximum of 63

Deducelt problems completed: 14.5 out of a maximum of 16

Scaled total<sup>1</sup>: 79.3

We thank you for your interest in studying Compilers, and for participating in our ambitious experiment to deliver quality educational content to a worldwide audience.

A handwritten signature in black ink that reads 'Alex Aiken'.

Alex Aiken

Professor of Computer Science

Stanford University

<sup>1</sup> The scaled total is computed as 20% electronic quizzes, 15% midterm, 25% final, 40% programming assignments with extra credit for Deducelt assignments.

Please note: This online offering of Compilers draws on material from our classes at Stanford University but does not reflect the entire curriculum offered to students enrolled in our courses at Stanford. This statement does not confer Stanford credit, grades, a degree or a certification or affirm that you were enrolled as a Stanford student, nor does it verify the identity of the individual who took the course.
